1. In response to applicant's argument that the references fail to show certain features of applicant's **invention**, it is noted that the features upon which applicant relies (i.e., envelope, latency, or stereausis processors) are not recited in the rejected **claims** 1, 5/1 or 6/1. Although the **claims** are interpreted in light of the specification, limitations from the specification are not read into the **claims**. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

It is also noted that applicant utilizes the phrase "acoustic signal waveforms and processing **similar** to those used by dolphins" in the claims (emphasis added).

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 5/1 and 6/1 are rejected under 35 U.S.C. 102(b) as being anticipated by Kuc. The Kuc reference discloses the utilization of a biometric sonar system (see FIG. 1), comprising a transmitter and two receivers (see FIG. 1) that use acoustic signal waveforms (see page 727, right column, 6th line from the bottom) and processing (see page 728, left column, line 26-28) similar to those used by dolphins for echolocation in which acoustic pulses are radiated by the transmitter, two or more channels of pulse echoes are received by the receiver and processed to generate acoustic images and probable identification of objects (see abstract) in the ensonified field as recited in the aforementioned claims.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. Claims 2,3 and 21-26 are allowed.
